

The American Peasant Party (APP)

**About the 27 American Agenda Proposals
and
AP Party ‘Citizen Action Programs’ (CAPs)**

Background – What is a CAP?

To provide our AP Party volunteers across the nation with campaign related projects that will directly drive various “planks” on The American Peasant Party’s platform we have created *Citizen Action Programs* or CAP Projects.

Basic examples of CAP projects are Legalize Hemp Farming in America CAP 19, Change the National Voting Day CAP 2, and another would document the Electoral Recall procedures for US Senate and House of Representatives for all fifty (50) states – it just happens to be CAP 28.

Each CAP will take on a project life of its own working to address whatever the issue or issues fall under its heading. Some CAP projects will result in no legislation being enacted and/or revised while others could do quite a bit of both. This will be further explained in another Blog selection – About the Agenda and CAP Projects. There are currently 28 CAP Projects. The first 27 match up one-to-one with the 27 Proposals in An American Agenda that is the centerpiece of the book, *The Second Coming of Common Sense* (CS2).

Overall, the CAP designation is a way to permanently identify a particular issues or set-of related issues so that they may be tracked and progress reported back to the citizenry on a periodic basis on the Internet. Progress will be measured in values such as lives saved, assaults prevented, tax money saved and put to better uses, employment created, tax revenue source created, etc.

For ease of reference I have included the Table of Contents pages from CS2 for Part 3 – An American Agenda for 2008 and Beyond. And yes, We are well Beyond 2008 and these problems solutions have only become more relevant and easier for our citizens to accept and support at the polls.

Please note that I uploaded the 27 individual proposals into the CAP 1 thru 27 selections below. It must be noted that proposals 18 thru 27 fall under the general heading of **American Industry Restructuring (AIR) Proposals**. There are several other documents throughout that section that are critical background to understanding the Restructuring of certain national industries. And that is where the underlying economic problems exist that must be confronted, conquered, and restructured for the benefit of for economy and the society that depends on it.

**Part 3 – An American Agenda for 2008
and Beyond.....102**

Introduction..... 102
Proposals for the Common Good 104
